**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 22 is rejected under 35 U.S.C. 102(b) as being anticipated by Tobe et al (US 5,679,716).

The instant claim is drawn to a xanthohumol-containing hops extract obtainable by the process according to claim 1; however, as per MPEP 2113, product-by-process claims are not limited to the manipulations of the recited steps, only the structure implied by the steps. Furthermore, if the product in the product-by-process claim is the same as or obvious from a product in the prior art, the claim is unpatentable even though the prior product was made by a different process; *In re Thorpe*, 777 F.2d 695, 698, 227 USPQ 964, 966 (Fed. Cir. 1985). Accordingly, the xanthohumol-containing hops extract disclosed in example 1 (col. 3, lines 15-54) of the Tobe et al reference anticipates the instant claim.

### ***Allowable Subject Matter***

The following is a statement of reasons for the indication of allowable subject matter: claims 1-21 are drawn to a method of producing xanthohumol that is present in hops. The closest prior art of record fails to teach or fairly suggest a process wherein

Art Unit: 1621

an ethanol pure resin extract from hops is washed with a first solvent after extraction with a liquid or supercritical solvent, and then extracting with a second solvent, the xanthohumol from the extraction residue washed with the first solvent, as claimed in the present invention.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references teach processes for the preparation of hop extracts.
